## Putting Your Processor to the Grindstone

*presented by* Glenn K.

Monday, 19 February, 2018 at 7:00 PM at Explorit Nature Center

Join us this February for a technical presentation by Glenn K. about Gentoo GNU/Linux and the Portage package manager. Tonight's talk will cover topics such as building and merging software packages, Portage tools and core configurations, file organization and management, how Portage builds packages, where Portage goes for build instructions, and portions of the Gentoo operating system.

Hosted by the Linux Users Group of Davis ([www.lugod.org](http://www.lugod.org))
